SERIES

www.asekonarms.com

We, ASELKON AŞ, are a well established international company that manufactures and exports Hunting, Sporting, and Tactical Military Purpose Shotguns, Pistols, PCP Air Rifles and all spare parts of firearms in accordance with internationally accepted standards, especially to ATF and CIP proof tests, and Country-Specific Firearms Compliance Regulations. We've been actively operating in the firearms sector since 2006 with our vast experience in manufacturing and exporting to more than 50 countries. Our products are highly appreciated in many leading markets in the world.

Thanks to our 40.000 m² fully integrated production facility, with our dynamic, productive and experienced technical staff, we manufacture every parts of guns from raw material to final product in our own facilities without depending on any external factor. In

this way, in every stage of production we manage our quality control perfectly and provide a high level of quality assurance.

As well as our major operations in international markets, we continue to cooperate with government and military forces in delivering diverse projects regarding armored vehicles, missile launcher platforms, crane – machinery and construction industry.

As being one of the leading manufacturers in firearms industry, we constantly improve our product and service quality with the concepts of high automation and flexibility in order to provide better quality products and effective solutions for the needs customers. We always aim the best in quality and increase the customer satisfaction.

AS-P9

ASELKON AS-P9 PISTOL designed and produced by Aselkon Defence applying the latest manufacturing technologies, is an ergonomic, practical new generation 9X19 mm semi-automatic pistol.

The picatinny rail at the bottom of the barrel allow the attachment and use of all type of pistol accessories. Working with the recoil operated auto loading system, it has a stable and accurate shooting capability, and standing out with its reinforced polymer grip, light, practical and deterrent characteristics.

| | |
|---------------------|-----------------------------|
| Caliber | 9x19 mm |
| Operation Principle | Blowback (Recoil operation) |
| Ammunition Feeding | Magazine Fed |
| Magazine Capacity | 15 Rounds |
| Action | Semiautomatic |
| Muzzle Output Speed | 360 m/s |
| Length | 197 mm |
| Height | 142 mm |
| Width | 31.5 mm |

| | |
|-------------------------------|--|
| Distance Between Sights | 142 mm |
| Barrel Length | 4" |
| Twist Rate, Number of Grooves | 1:10" , Clockwise 6 Grooves |
| Trigger Pull (~) | 2,5 Kg/F - SA |
| Safety System | Trigger Safety, Magazine Safety, Firing Pin Safety, Safety Latch |
| Effective Range | 100 m |
| Weight | 800 Gr. |
| Loaded Weight (Magazine Full) | 890 Gr. |

| Muzzle Output Speed | 400 m/s |
| Length | 343 mm./570mm stock closed 646 mm stock extended |
| Height | 194mm without magazine 226 mm. With magazine |
| Width | 58,4 mm |

| | |
|-------------------------------|--|
| Magazine Capacity | 15-30 Rounds (Han-9) 30 Rounds (Han-9m) |
| Distance Between Sights | 142 mm |
| Barrel Length | 6,5" |
| Twist Rate, Number of Grooves | 1:10" , Clockwise 6 Grooves |
| Trigger Pull (~) | 2,5 Kg/F - SA |
| Cocking Force | 6.5 Kg/f |
| Effective Range | 150 m |
| Weight | 2100 Gr. |
| Loaded Weight (Magazine Full) | 2650 Gr. |

Mp5 style muzzle connection tabs on the tip of the muzzle, and 1/2 28 type threads for attaching silencer.

Accurate shooting with 6,5" melonite coated barrel.

M-lock slots on the top, bottom and sides and picatinny rails, it allows the attachment and use of additional tactical equipments.

Easy to use and carry thanks to its light aluminum alloy body it has an ergonomic and handy structure.

Designed in two versions enabling to use all magazines used with 9 mm Glock Pistols and 9 mm MP5-SP5-AP5 Machine Pistols.

ASK-37 RGL

ASK-37 RGL Grenade Launcher

Aselkon ASK-37 RGL anti-riot grenade launcher has been designed to fire 38 mm gas cartridges to be used by law enforcement forces or military for riot control. Aselkon has analyzed superior features of the known anti-riot grenade launchers and created the ergonomic and user-friendly ASK-37 RGL comprising and The picatinny rail and

M-lock connections on the upper receiver, side and bottom of the barrel allow the attachment and use of the needed accessories. Working with the breech loading system, it has a stable and accurate shooting capability, and standing out with the aluminum alloy bottom and top parts, light, practical and deterrent characteristics.

| | |
|----------------------|--|
| Caliber | 38 mm |
| Action | Single Break Action |
| Capacity | Single Shot Breech loading System |
| Safety | Mechanical Safety Lock |
| Overall Length | 686 mm stock closed 766 mm stock extended |
| Length Without Stock | 480 mm |
| Stock | Telescopic Adjustable— Detachable |

| | |
|------------------------------|--|
| Barrel And Receiver Material | 4140 steel, 7012 Aluminium |
| Barrel Length | 316 mm |
| Trigger Pull Force(~) | 46 Newton |
| Cocking Force | 6.5 Kgif |
| Effective Range | 100 m Depends on ammunition type |
| Weight | 3.00 ±Kg (Steel Material) 2.6±Kg.(Aluminium Material) |
| Rate of Fire/Minute | 8-10 Rounds |

ASK-37 RGL

ADJUSTABLE CHEEK RISER

Comfortable aiming with adjustable cheek riser.

ADJUSTABLE- DETACHABLE STOCK

Telescopic stock that can be easily detached thanks to the lever at the top of the receiver. This feature gives advantage of carrying and firing without telescopic stock in narrow places like the interior of armored vehicles

DURABLE POLYMER GRIP

High Resistance against heat or impacts in the operational environments.

COMFORT RECOIL

The recoil pad is designed for comfort and fast shouldering with high tech microcell material.

FOLDING SIGHT

ASK-37 is equipped as standard with Front and Rear Folding Sight System that is adjustable in windage and elevation and protected by side lugs in heat-treated steel.

PICATINNY RAIL

Possible to fit all types of targeting device (from optical sights to red dot sights, light intensifiers etc.). The new forearm with multi rail system allows the mount of mini-rails (12-slots) all over at 3/6/9/12o'clock.

EASY LOAD- SINGLESHOT

Quick loading/unloading both for right- or left-handed user

38 MM BORE BARREL

We engineered ASK - 37 RGL to maximize the constancy of shot and ebable to use all tyepe of 38 mm grenade and tear gas shells

STATO3

We are aware of how difficult the job of law enforcement officers is and how confident they must be in the product they are using.

Aselkon's new pump model **STATO 3** fully meets your needs and provides you with full security while you are on duty.

H Y B R I D

STATO3 HYBRID SYSTEM

STATO3 is a pump action: STATO3 is one of the best possible choice for any operational or defense requirement. This is thanks to its flexible use (lethal and less than lethal ammos), easy handling, precision and high firing volume.

The interchangeable stocks-fixed drop, variable drop and pistol grip-only increase the versatility of this weapon.

HYBRID SYSTEM

ROTATING BOLT TECHNOLOGY

Ultra reliable, Safe and Fast Locking System

HYBRID SYSTEM

COMFORT RECOIL

The recoil pad is designed for comfort and fast shouldering with high tech microcell material. It's not only a shotgun, it's an experience.

GHOST RING SIGHT OPTIC FIBRE

The STATO3 Hybrid is equipped as standard with a Ghost Ring Sight that is adjustable in windage and elevation and protected by side lugs in heat-treated steel. (Optic fibre dots, 1 red in front and 2 green in rear).

PICATINNY RAIL

Possible to fit all types of targeting device (from optical sights to red dot sights, light intensifiers etc.). The new forearm with multi rail system allows the mount of mini-rails (5-slots) all over at 3/6/9/12 o'clock.

1500 BAR

Each Inter barrel is subjected to a proof test with 1500 BAR high pressure test cartridge before leaving our factory.

OPTIC FIBRE

EASY LOAD

The receiver is fitted with a generously sized charging handle and bolt release as well as a beveled loading port with an outward angled cartridge drop lever insuring the inter is easy to operate even with gloved hands.

BALANCED

The Inter Arms comes standard with our precision drilled Interbored barrel. The barrel is designed to shoot comfortably and pattern superbly with both light and heavy loads.

EXTRA RAIL

The new forearm with multi rail system allows the mount of mini-rails (5-slots) all over at 3/6/9/12 o'clock.

INTER PLUS CHOKE

We engineered the interchangeable InterPro Chokes to maximize the constancy of shot placement through reduced friction that enhances load speeds.

STATO4

MODELS

HYBRID

We are aware of how difficult the job of law enforcement officers is and how confident they must be in the product they are using.

Aselkon's new model **STATO4 HYBRID** fully meets your needs and provides you with full security while you are on duty.

HYBRID SYSTEM

SELF CLEANING DOUBLE PISTON

The pistons are required to move only 1/2" for complete cycling which results in a faster operation with minimum vibration and quick target acquisition.

Gas powered automatic system. It consists of a self-regulating gas system with a short-stroke piston. It is placed at the bottom of the chamber, near the chamber, to use the hottest gases at a higher pressure.

Gases exiting the barrel expand (in the self-adjusting gas system) and rapidly accelerate the stroke of the piston, which simultaneously strikes the bolt follower pin and pushes it hard enough to cause it to retract. The gas inlet valve is self-regulating as it acts as a regulating valve that expels excess gas during ignition.

The larger the volume of gas flowing through the barrel, the faster the pin valve opens and lets it out, thereby reducing the pressure inside. Self-adjusting, it guarantees shooting accuracy, reliability, durability and certifies Aselkon's technological excellence.
